

Evaluation of the study programme

Name of the study programme:

Degree of study: Form of study:

Evaluation period: from into.....

Name of the field of study	
<i>Name of the research area</i>	

Sponsor of the study programme:	
Programme subjects covered	

Number of students in the reporting period								
Form	Number of applications submitted (+/- quantification of the change)		Number of Admitted		Number of enrollees		Number of graduates	
Full Time		+/-		+/-		+/-		+/-
Part Time		+/-		+/-		+/-		+/-

Implementation and effectiveness of the measures from the previous evaluation:

Subjects evaluated in the monitored period:

1. ...
2. ...
3. ...

CONTENT OF THE STUDY PROGRAMME

The most common risks and shortcomings:

Measures to improve:

ORGANIZATION OF EDUCATION

The most common risks and shortcomings:

Measures to improve:

FORMS AND METHODS OF TEACHING

The most common risks and shortcomings:

Measures to improve:

SPATIAL, MATERIAL, TECHNICAL AND INFORMATION PROVISION OF THE STUDY PROGRAMME (PC AND SOFTWARE EQUIPMENT, VLE, E-LEARNING)

The most common risks and shortcomings:

Evaluation of the study programme

Name of the study programme:

Degree of study: Form of study:

Evaluation period: from into.....

Measures to improve:

COVERAGE OF THE STUDY PROGRAMME WITH BASIC AND RECOMMENDED LITERATURE

The most common risks and shortcomings:

Measures to improve:

	Teacher	Lecturer	Assistant	Internal doctoral students	Other	Togeth er
Number of full-time						
Number of part-time jobs						

EMPLOYER FEEDBACK

Number of addressed subjects in the monitored period:

Area	Avg.. Mark	Area	Avg.. mark
Ability to independently solve assigned tasks.		Creative approach of the student in solving the problem, including the effective use of methodological procedures and research methods.	
Knowledge of the basic principles, rules and tools necessary for the performance of work tasks in practice.		Ability to present ideas and results of activities.	
IT skills needed to perform practical tasks.		Communication in foreign language (written and oral).	
Ability to learn new things.			
<i>The most common shortcomings:</i>			
<i>Measures to improve:</i>			

GRADUATE FEEDBACK

Number of respondents / graduates in the monitored period:

Number of employees:

Percentage of employed in the field:

EVALUATION OF SCIENTIFIC RESEARCH ACTIVITIES IN A RELATED FIELD OF RESEARCH

For the evaluation, the guarantor submits the Evaluation Form for the Evaluation of R & D Activities

Describe the innovations of the study programme with regard to the outputs of scientific and research activities

at the level of Subjects, Topics of Final Theses, Final Examinations, Professional practice.
